Quality Control Environment

MAS Turnkey Solution are committed environmentally conscious company and there is a constant approach in the field of safeguarding of environment. The various steps taken are self-indicators of our policy towards the same viz.

- Use of steel scaffolding and shuttering material instead of wood
- Use of electrically operated mixer and vibrator instead of polluting diesel engines
- We recommend the use of steel/ aluminium/ UPVC door and window instead of wood to our valued customers/clients

Safety

We are committed to try to have the best safety record and to keep on upgrading each year. It is a discipline which must be uppermost in our minds when doing our day to day business and cannot be delegated, absolved or ignored. Site work and operations management at all levels have a particular important role in maintaining standards in view of the hazardous working environment under their control.

The partners of MAS Turnkey Solution regard proper management of safety as an integral part of its business activities. We take all reasonably practical measures to ensure the safety and welfare at work of all employees and others who may be affected by our activities, and to comply with all statutory requirements and code of practices. The company provides the necessary resources to ensure the implementation of the safety policy.
